PROCEDURE:

If correspondence or a notice resulting from a violation of the compulsory insurance law was received by an individual, advise him to comply with requirements as outlined in the notice or to call Headquarters Services at (225) 925-6146.

When a statement of non-use is received, the MVCA must check the master record. If an NI, CP, VT or TR flag appears on the record, the non-use cannot be set on the master record. If an insurance cancellation flag appears on the record, the customer must be referred to a Reinstatement office for assistance as the non-use statement cannot be used as acceptable compliance.

A TT30 must be processed to enter "NU" in the flag field and the beginning and ending dates in the "Date 1" and "Date 2" fields. The non-use statement must be sent to the Records Unit, Headquarters.

REMOVING THE NU FLAG

Once the owner furnishes proof of current insurance (i.e., insurance I.D. card, policy, letter from insurance company or agent), the "NU" flag and dates can be lifted by processing a TT30. The proof must contain the insurance company's name, policy number, policy period dates, and full description of vehicle.

The "NU" flag and dates will automatically be lifted from the vehicle record when new insurance information is reported to the department by an insurance company.

Renewal notices are not mailed when an "NU" flag is set on a master record.

Transaction 34 can be processed to remove a transferable plate from the vehicle record. The "NU" flag and dates will remain on the vehicle master record. The owner must provide proof of insurance or submit a non-use statement for the vehicle to which the plate will be transferred.
